

## FEATURE EXHIBITION

# Dinosaurs Around the World

**Come roam among life-sized dinosaurs that move! Meet twenty animatronic dinosaurs that move their heads, their tails... and even roar!**

**After you meet them all, have fun sliding down the back of a sauropod and climbing on others. You can also explore paleontologist tools, admire fossils, and play a series of interactive games.**

**6+** Exhibition designed for children ages 6 and up.

### Notes for Companions

This exhibition hall has one entrance point and one exit point only. The hall is divided by many partitions that can easily impede your view of those you are accompanying.

The exhibition hall's visit path is quite specific. This makes it very difficult to back track. You can also expect significant crowds.

The animatronic dinosaurs are loud and move unexpectedly. Noise cancelling headphones are available on loan at the ticket counter. Quantities are limited.

**Animatronic Dinosaurs**

**Pocket Games**

**Sitting on Dinos**

**Wall Puzzle**

**Fossil Guessing Games**

**Obstacle Course**

 **Accessibility**

 **Discovery through an intermediary**

 **Sudden noises**
