FEATURED PROGRAMMING

INSPIRING NATURE, INSPIRED TECHNO

FROM SEPTEMBER 27, 2023

Biomimicry & Transport

Nature is pure genius. Magnificent in so many ways, nature has also inspired many technological innovations. Come learn how plants and animals have helped us design greener and more efficient transportation technologies.

The exhibition is a production of the Museum of Ingenuity J. Armand Bombardier in collaboration with the Sherbrooke Science and Nature Museum, the Granby Zoo and the Institut de biomimétisme. This project was made possible thanks to the contributions of the Museum Assistance Program from Heritage Canada and the J. Armand Bombardier Foundation.

Gurumoorthy K., 2021

Tom Mangelsen, 2019

Arthur Telle Thiemann, 2020

FROM SEPTEMBER 27, 2023

Comedy Wildlife Photography Awards exhibition

Knowing them better so we can protect them better

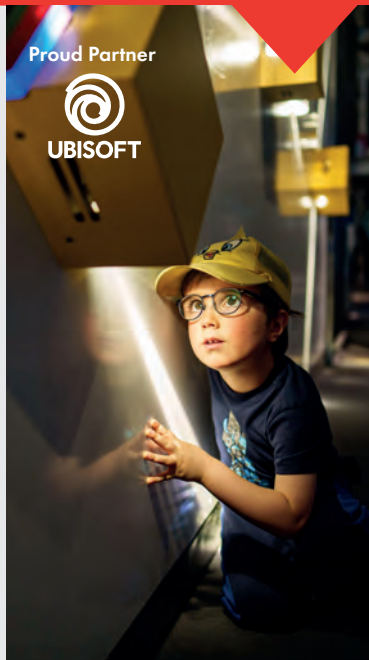

For the very first time in Canada! Discover this international photo competition designed to enhance our understanding and our commitment to living sustainably, preserving biodiversity, and supporting wildlife conservation efforts. Come share a laugh with some delightfully silly animals. Caught on camera in somewhat unusual situations, this merry gang of characters is sure to stir smiles and giggles. A perfect way to learn and get to know them!

3 PERMANENT EXHIBITIONS

Explore Life-sized Science

The Science Centre's very own fan-favourite exhibition has over 50 interactive stations exploring 7 fun-filled themes each more amusing than the next. Step inside giant interactives and play with air, code, matter, motion, geometry, light and water! Enjoy microscopes, robots, an air labyrinth, water and ferrofluids, a giant bubble, and a gigantic kaleidoscope too! Come be surprised and amazed!

Proud Partner
UBISOFT

Human You're the hero of this exhibition

Humans are the result of innumerable transformations. Slide into the skin of another and explore the wonders of the fascinating human body. An interactive journey exploring our place along human evolution and where it might take humankind in the future.

Mini Mondo For children 0 to 7

Step inside *Mini Mondo*, a fascinating, interactive world where children explore their environment by adventuring out into a custom-sized world where they'll find objects to handle, smells to take in, sounds to listen to, all sorts of things to see, and tons and tons of fun!

FILM AT THE IMAX TELUS THEATRE

Animal Kingdom 3D: A Tale of Six Families

Come giggle and mingle with six great animal families in this heartwarming adventure.

The Old Port Skating Rink

A school outing in a magical setting! Your students will love it! Plan your winter outing now and take advantage of special group rates.

8 SCHOOL PROGRAMS

Developed using the MEES's progression of learning approach and led by science educators.

CYCLE 1 - CYCLE 2 - CYCLE 3

Fabrik (AGES 8 AND UP)

Create prototypes and test your inventions in a space where trial and error is the name of the game. *Fabrik* is all about using creativity and imagination to build and assemble all sorts of things.

May to October

New!

Techno Garden

What do fruits and vegetables need to grow? Observe, measure, and analyse then build an irrigation system designed by SERV-EAU. Come learn how to design the gardens of tomorrow!

CYCLE 1

Planet of the Senses

Program the five senses of Sensor, the explorer robot, and help it find a new planet where humans can live.

Rock 'n' Roll Marbles

Impress Whirly the dog by creating runs where marbles can roll for as long as possible.

CYCLE 2

M-organ's journey

Help M-organ better understand the processes at work inside human body through giant interactive games that explore digestion, breathing, and circulation.

Shh! It's Story Time

Become a sound effects or lighting technician and breathe life into an Indigenous tale.

CYCLE 3

Mysterious Machines

Explore simple machines, assemble and dress up a truly mysterious one of your own, then put it into action!

SOS Radio

You've survived a plane crash in the Far North and must now generate electricity to send out an SOS using the resources available on board.

The Science Centre on the Road

Cycle 2 and 3 special education groups can enjoy an engaging Science Centre workshop from the comfort of their classrooms for free. Speak with our advisors to learn more.

READY-MADE OUTINGS

- Outing planning assistance
- Welcome session upon arrival
- Self-led visits or visits led by specially trained educators
- Free parking and easy access for buses
- Free lunch space for groups buying IMAX®+Exhibition combo tickets

ELEMENTARY LEVEL GROUP RATES

Two hours of self-led or educator-led activities at the Montréal Science Centre starting at \$11 **OR** one IMAX® film starting at only \$8.25 per person.

OR

Two hours of self-led or educator-led activities at the Montréal Science Centre **AND** one IMAX® film starting at only \$15* per person.

One free ticket with every purchase of 15 tickets.

**Available only with a reservation. Taxes not included. Visit our website for complete rate details and booking conditions. Prices are subject to change.*

GROUP RATES FOR THE OLD PORT SKATING RINK

- For groups of 15 people or more
- Rates available on request
- One free ticket with every purchase of 15 tickets
- Skate rentals available (rental fees apply)
- Only available with a reservation
