- Open to all audiences starting June 21 and playing all summer long in English and French.

A Fascinating Adventure into the Heart of the Animal Kingdom

From the vast African savannah to the Earth's farthest frozen lands, *Animal Kingdom 3D* takes audiences on a heartwarming adventure celebrating the diversity of our planet's wildlife. Meet six majestic animal families and explore the challenges they've overcome, the lives they lead today, and the part they play in keeping the Earth's ecosystems in balance.

The film's narration is designed for children and those who love to learn, making it an ideal family film experience.

Known for their large format natural history films, accomplished filmmakers Paula Grusovin and Amelia McCarten offer audiences dazzling nature scenes and invite

them on a fascinating exploration of the animal world. An unbelievable opportunity to get up close and personal with a wonderful cast of animal characters including the astounding dung beetle, the irrepressible penguin, the mighty crocodile, the wise elephant matriarch, among others!

"We are excited about presenting Animal Kingdom 3D at the Montréal science Centre. More than just a film about animals, it is a superb story that mixes flora and fauna that takes audiences to all corners of the planet. Viewers will be astounded by this immersive experience into the animal world."

- Cybèle Robichaud, Montréal Science Centre Director
